Kyth is the AI-powered intelligence platform for the legal talent market. We surface current, reliable signals on lateral attorney movement, firm hiring activity, practice-area trends, and broader market shifts, giving recruiting teams the edge to move faster than the competition.

Built for the recruiters whose work depends on getting talent right: search agencies, boutiques, solo consultants, and the law firm recruiting teams they partner with. Kyth combines current market data with a multi-agent AI layer that synthesizes, reasons, and produces the strategic read on top. Where other tools deliver a database, Kyth delivers an analyst.

- **Kyth Chat:** The first natural-language interface in legal market intelligence. Talk to the platform in plain English. Ask anything from "find me a senior associate with SEC enforcement experience" to "which firms in DC are losing tax partners" and get the analysis your team would otherwise spend days assembling.
- **Search and Match:** Kyth ranks candidate slates with the why behind every result. Always current, always source-cited.
- **Intelligent Outreach:** Drafts that reference each candidate's actual practice, deal history, and strategic fit. The kind of message that earns replies from candidates who ignore generic pitches.

2,000+ firms · 300,000+ attorneys · 5,500+ jobs · SOC 2 Type II, ISO 27001, GDPR compliant.

We're the only US legal career guide to conduct in-depth telephone interviews with thousands of junior associates on the topics that matter to juniors, like the work they do day to day, the social life (if there is one), pro bono, diversity, how hard they work you, how much money you make, personal development, and much more. We grant our interviewees anonymity so they can speak to us honestly and truthfully. FEDERATE Federate Legal Inc. (Recruiter Partnerships Division)

Federate is a pioneering technology-enabled services organization dedicated to transforming the business of law by providing managed services for small to mid-sized law firms. We believe that small and mid-sized law firms deserve access to the same benefits and back-office service levels that BigLaw firms enjoy without sacrificing autonomy in the practice of law. In short, Federate enables existing law firms to attain the back-office scalability of merging with other firms but without the loss of control. And for groups of attorneys thinking about starting their own firm, Federate operates as a "law firm in a box" solution to streamline a new firm's set-up and continued operations.

Much like a typical law firm, NALSC sponsor Federate's Recruiting Partnerships Division regularly works with legal search firms regarding introductions to firms who may have operational issues, may be looking at being acquired or merging, and/or groups of attorneys looking at starting their own firm. Legal search firms have their ear to the ground at all times and know about these potential firm mergers or practice group splits before the rest of the industry. Federate is a compelling and novel solution for firms wanting to avoid the complications that come with mergers or for groups looking to start their own firm. In addition, Federate continues to work with search firms in the traditional placement of lateral attorneys at each of the firms on Federate's platform.

 **Firm Prospects**

Firm Prospects is the first and only law firm intelligence platform designed by former top firm attorneys and legal search professionals that offers precisely targeted search

results and unparalleled market intelligence.

Whether searching for candidates or tracking trends in lateral movements, your results are only as good as the underlying data. That's why we've taken the time to develop a comprehensive and accurately categorized database, while also applying the latest technology to enhance our review process. As a result, we provide more targeted market intelligence to our customers.

In addition, we not only show trends based on historical data, but also apply a proprietary predictive analytics model that allows us to look prospectively to identify associates who are most likely to make a lateral move within a 6 to 12 month period.

In the end, finding the right candidate and retaining that individual is one of the most time consuming and costly challenges businesses face. Law firms are no exception. The US headquarters offices are in midtown Manhattan, and in February 2025 the firm opened its second US office in Chicago.

The firm trains its lawyers to approach their law practice in a business-like manner, and our culture is based upon empowering lawyers to control all aspects of their work – what they charge, how much they work, from where they work, for whom they work. We are distinguished from other firms in this segment by (i) our commitment to a robust and rich internal collaborative culture that rewards the sharing of work evidenced by the statistic that one-third of the firm’s revenues are derived from internally referred clients and partners; (ii) our hybrid model, perfected over 15 years, which makes us not a virtual firm, but a firm which makes flexible working with hot-desk and multi-use offices available for its lawyers in the cities where it operates combined with a tech-driven cloud based working environment; and (iii) our transparent revenue share financial model which is the most lucrative of any other firm: *Lawyers retain 70%-90% of self-serviced origination collections. Partners are free to set a referral rate for matters they refer to other partners which, after referral bonuses paid by the firm, can yield more than 36% on a partner’s book serviced by others. Partners retain over 53% of collections for servicing other partners’ clients (dependent upon the agreed referral fee, at 20% the yield is 56%).*
