kyth where connections emerge

Kyth is the AI-powered intelligence platform for the legal talent market. We surface current, reliable signals on lateral attorney movement, firm hiring activity, practice-area trends, and broader market shifts, giving recruiting teams the edge to move faster than the competition.

Built for the recruiters whose work depends on getting talent right: search agencies, boutiques, solo consultants, and the law firm recruiting teams they partner with. Kyth combines current market data with a multi-agent AI layer that synthesizes, reasons, and produces the strategic read on top. Where other tools deliver a database, Kyth delivers an analyst.

- **Kyth Chat**: The first natural-language interface in legal market intelligence. Talk to the platform in plain English. Ask anything from "find me a senior associate with SEC enforcement experience" to "which firms in DC are losing tax partners" and get the analysis your team would otherwise spend days assembling.
- **Search and Match**: Kyth ranks candidate slates with the why behind every result. Always current, always source-cited.
- **Intelligent Outreach**: Drafts that reference each candidate's actual practice, deal history, and strategic fit. The kind of message that earns replies from candidates who ignore generic pitches.

2,000+ firms · 300,000+ attorneys · 5,500+ jobs . SOC 2 Type II, ISO 27001, GDPR compliant.

FEDERATE

Federate Legal Inc. (Recruiter Partnerships Division)

Federate is a pioneering technology-enabled services organization dedicated to transforming the business of law by providing managed services for small to mid-sized law firms. We believe that small and mid-sized law firms deserve access to the same benefits and back-office service levels that BigLaw firms enjoy without sacrificing autonomy in the practice of law. In short, Federate enables existing law firms to attain the back-office scalability of merging with other firms but without the loss of control. And for groups of attorneys thinking about starting their own firm, Federate operates as a "law firm in a box" solution to streamline a new firm's set-up and continued operations.

Much like a typical law firm, NALSC sponsor Federate's Recruiting Partnerships Division regularly works with legal search firms regarding introductions to firms who may have operational issues, may be looking at being acquired or merging, and/or groups of attorneys looking at starting their own firm. Legal search firms have their ear to the ground at all times and know about these potential firm mergers or practice group splits before the rest of the industry. Federate is a compelling and novel solution for firms wanting to avoid the complications that come with mergers or for groups looking to start their own firm. In addition, Federate continues to work with search firms in the traditional placement of lateral attorneys at each of the firms on Federate's platform.

Firm Prospects

Firm Prospects is the first and only law firm intelligence platform designed by former top firm attorneys and legal search professionals that offers precisely targeted search results and unparalleled market intelligence.

Whether searching for candidates or tracking trends in lateral movements, your results are only as good as the underlying data. That's why we've taken the time to develop a comprehensive and accurately categorized database, while also applying the latest technology to enhance our review process. As a result, we provide more targeted market intelligence to our customers.

In addition, we not only show trends based on historical data, but also apply a proprietary predictive analytics model that allows us to look prospectively to identify associates who are most likely to make a lateral move within a 6 to 12 month period.

In the end, finding the right candidate and retaining that individual is one of the most time consuming and costly challenges businesses face. Law firms are no exception. The Firm Prospects platform helps legal search firms to more efficiently target quality candidates to present to their law firm clients.

For more information or to schedule a demo, please feel free to visit our website at www.firmprospects.com or reach out to us at demo@firmprospects.com.
